1. Comment. Undoubtedly, a large percentage of the 540 carloads with "unidentified goods" listed in this report were troop trains. 25X1

2. Comment. These shipments were definitely identified as troop trains. 25X1

3. Comment. A total of 2,020 cars, including 540 with unidentified cargo, were loaded in July 1952. See Comment 1. Therefore, it appears that military supply traffic in the Dresden railroad district in July 1952 was at about the same level as that in the preceding month during which 1,574 carloads were handled. This volume of supply traffic is normal. 25X1 25X1

4. 25X1
